XhoI; This library, constructed by John Davies and Jeffrey
XhoI; This library, constructed by John Davies and Jeffrey
McDermott, combines colNas from cc-1690 cells grown to
mid-log phase in TaP (acetate-containing) medium in the
light, TAP medium in the dark, HS (minimal) medium in the
light ambient levels of Co2 and HS medium bubbled with 5% CO2
mubient levels of Co2 and HS medium bubbled with 5% CO3.
PolyA mRNA was purified from each sample, pooled and cDNA
synthesized. The CDNA was directionally cloned into lambda
ZAP II (Stratagene) in the EcoRN (5%) and XNOI (3%) sites
pBluescript II SK- plasmids were excised from the lambda
ZAP clones by superinfection with Exassist (Stratagene)
phage. The library was normalized using method 4 described
in Bonaldo et al (1996) Genome Research 6: 791-806."

Patent No. 6265202

GENERAL INFORMATION:
APPLICANT: Liu, H.
APPLICANT: ALO, Y.
TITLE OF INVENTION: DNA encoding methymycin and pikromycin
FILE REFERENCE: 600.438US1
CURRENT APPLICATION UNDBER: US/09/105,537A

CURRENT FILING DATE: 1998-06-26

NUMBER OF SEQ ID NOS: 43

SOFTWARE: FastSEQ for Windows Version 3.0

SEQ ID NO 3

LENGTH: 13613
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              ORGANISM: Streptomyces venezuelae US-09-105-537-3
